Male apoE*3-Leiden.CETP mice on high-fat high-cholesterol diet exhibit a biphasic dyslipidemic response, mimicking the changes in plasma lipids observed through life in men

Yared Paalvast, Albert Gerding, Yanan Wang, Vincent W. Bloks, Theo H. van Dijk, Rick Havinga, Ko Willems van Dijk, Patrick C. N. Rensen, Barbara M. Bakker, Jan Albert Kuivenhoven & Albert K. Groen

Physiol Rep, 5 (19), 2017, e13376, <https://doi.org/10.14814/phy2.13376>

In Paalvast et al. (2017), the figures 8 and 9 were wrongly processed so that the wrong figures were attached to the figure captions. Both figures 8 and 9 are now the correct figures after a post publication correction so that both figures match the corresponding figure captions.

The authors apologise for the error.
